SUBJECT - Maidala tank, Tumkur District - increasing the capacity -- Reduction of atchkat

---

With reference to correspondence ending with your reminder No 8533 dated 8-3-1947, on the above subject, I have the honour to forward herewith, a copy of letter No C6 4406 df 1945-46 dated 26-3-47, with a copy of Deputy Commissioner's letter therein mentioned and the connected records received from the Revenue Commissioner in Mysore, and to state that there is no scope to increase the capacity of the tank As for the reduction of atchkat to to the extent of 200 acres, the concerned ryots are stated to be not willing as their lands could be irrigated by seepage water, except the owners of Survey ~~Numbers 127~~ Numbers 127 to 135 of Settihalli village measuring about 30 acres If the Land Lords who are unwilling to the conversion of their lands into dry do not claim any compensation and do not ask for water supply for irrigating their lands at any stage, their lands may be allowed to continue as wet This will reduce the land compensation considerably

2 I request that orders of Government on the following proposals may kindly be conveyed early for the proper management of the tank and allied works --

1) Appointment of a Sub-overseer permanently for better supervision and management of the tank and channels meeting the cost from State Funds

ii) An annual grant of Rs 1,172/- or actual cost for repairs to the feeder channels and for meeting the pay and cost of uniforms of the Sowdies, 2/3 being debited to the Irrigation Cess Fund of the Tumkur District, and 1/3 to the Tumkur Municipality

iii) To hold an enquiry under Irrigation Act for the levy of acreage cess to meet the cost of maintenance of the sluice channels

iv) To start acquisition proceedings in respect of 30 acres of land referred to above, if the other area is allowed to continue

Haidala Tank, Tumkur District - Reduction of Atchkat of-

With reference to your letter No 4497/I dated the 18th April 1946, asking for my views on the above subject, I have the honour to state that it is reported by the Deputy Commissioner, Tumkur District, in his letter No A5 2561 of 45-46 dated the 2nd August 1946 (copy enclosed) that the majority of raiyats are not agreeable to the conversion of their wet lands into dry as these lands could be irrigated by seepage water Only the owners of S Nos 127 to 135 of Settihalli village measuring about 30 acres, are agreeable to the conversion A statement to this effect recorded before the Amildar is in the file

2 The suggestion of the Superintending Engineer for the appointment of a Suboverseer permanently for the supervision and management of the tank and channels, the cost being met out of the State Funds, may be accepted and recommended for sanction as the services of a properly paid executive subordinate are quite necessary for the purpose

3 The third proposal of the Superintending Engineer is for the sanction of a sum of Rs 1,172/- annually for the repairs to the feeder channels and for meeting the pay of the Sowdies and the cost of their uniform - Rs 782/- to be met from Irrigation Cess Fund of Tumkur District and Rs 391/- from Tumkur Municipality This proposal is reasonable and may be approved nt

4 The fourth proposal is about the levy of acreage cess for meeting the cost of maintenance of the channels The levy of acreage cess is governed by Section 35 (2) of the Irrigation

P t o

Irrigation Act No information is available as to how many of the atchkatdars are agreeable to the levy of the acreage cess The levy can be ordered only if 2/3 of the number of persons bound to perform such labour give their consent Furtner enquiries are necessary before any action can be taken in respect of the proposal The Deputy Commissioner has to be asked to make needful enquiries and send up a report separately

5 It is clear from the available papers that the proposal for the reduction of wet atchkat by about 200 acres is made first to ensure a guaranteed supply of water to the Tumkur Town When the Municipality is benefitted by such a reduction in the atchkat it is only fair that it should meet the cost of acquisition Though no estimate of the cost of such acquisition has so far been made it may be stated that it will not be less than Rs 1,50,000/ as gathered from the available papers As the lands are stated to be very valuable, the owners there will have to be paid adequate compensation If the Municipality is agreeable or the Government is prepared to meet the cost of acquisition, the question of taking further action be pursued

6 Considering the several aspects of the question, it is found that if the conversion is absolutely necessary to ensure proper supply of water to Tumkur Town, there seems to be no alternative but to acquire the lands under the Land Acquisition Act The cost of acquisition has to be borne by the Municipality or Government as the case may be If it is possible to restrict the conversion to those survey numbers whose owners have agreed, acquisition proceedings may be taken up in respect of these lands only The cost involved will then be much reduced

REDUCTION OF ATCHKAT UNDER MAIDALA TANK,TUMKUR TALUK

With reference to your Memo No C6 4406 of 45 dated 2nd May 1946, on the above subject, I have the honour to forward herewith, the entire file of records ending with Tumkur Sub Division Officer's Memo No A2 C 1820 of 45-46 dated the 19th July 1946 and to state as follows --

The Amildar and the Sub Division Officer after enquiry report that a majority of the ryots are not agreeable to convert their wet lands into dry as they could be irrigated by seepage water, that the owners of S Nos 127, 128, 129, 130, 131, 132, 133, 134 and 135 agreed to the conversion of their lands from wet into dry and have given a mutchalika before the Amildar to that effect

The statement of the other ryots of Settihalli village who are the atchkatdars of Maidala tank that are unwilling to the conversion of their wet lands into dry is also enclosed in the records

In the circumstances, I request that the question of conversion of S No 127, 128, 129, 130, 131, 132, 133, 134 and 135 may be taken up in consultation with the Superintendent of Land Records
